WHY STUDENTS SCORE LOW IN SOCIOLOGY PAPER?

- **Deviating from Question Demand**- Write the answer according to the actual requirement of the questions. Focus on Key words & Tail words effectively (Elucidate - Explain, Comment, Examine, Criticallyexamine, Discuss, Analyze, Illustrate, Review, Argue, Justify etc.).
- **Lack of Contextual Understanding** - Understand the context of the questions & align the content of the answer as per contextual framework.
- **Improper Structuring** – Ensure logical structuring of sentences, their alignment & present relevant information, choice of words and statements. Proper consideration of priority and focus of given ideas is must.
- **Overuse of GS Knowledge with lacking Conceptual Clarity**- Ensure proper visibility of idea through alignment Theory, Facts, Sociological Studies & Personal Observation of Current Socio-Economic & Political Affairs, according to the requirement of the question.
- **Inability to provide Dimensions**- Incorporate your opinion from different perspective in a balanced manner. Give your opinion when asked for it. Impressive beginning and Conclusion of the answer.

- **Lack of Practice** - The more you sweat in peace, the less you bleed in war! Over-emphasis on preparing GS Papers and postponing Optional writing practice to the Eleventh hour can be detrimental. However, Practice without an effective feedback is pointless. Errors/gaps must be identified & corrected.
